In most instances, these casters offer greater capacity, while maintaining the lowest possible overall height. Differential action helps to reduce scrubbing when changing directions. Because they are made from the single wheel caster rig, cantilever-style dual wheel casters can be field built.

**MOUNTING OPTION**

Transform your standard 90 or 95 Series rig into a Dual Wheel caster with this field installable Cantilever Kit.

*Kit includes the axle, nut, and spacers required to mount two wheels on a standard rig.

**FEATURES**

- 290 Series is a dual wheel version of our popular 90 Series. For full rig specifications, please see page 62.
- 295 Series is a dual wheel version of our popular 95 Series. For full rig specifications, please see page 72.

**BEARING OPTIONS**

- Straight Roller (01)
- Precision Ball (28)
- Potentially Precision (29)

For swivel models add “SK”, for rigid model add “RK” to end of base caster number.

**RIG OPTIONS**

- Face Contact Brake specify F
- Swivel Lock (welded) specify L

**CAPACITY TO 8000**

- All casters rated for manual operation
- All casters have an approximate bearing life of 10,000 miles
- Low friction bearings provide smooth, quiet operation

**Wheel Diameter**
