**Polyurethane on Heavy Duty Cast Iron (PI)**

Ergonomic polyurethane tread is firmly bonded to precision machined cast iron core and features precision ball bearings for smooth, reliability mobility in both hand operated or towed applications.

### FEATURES
- **Hardness:** 95 Shore A
- **Wheel Face:** Radius tread
- **Finish:** Yellow on black core
- **Temperature Range:** -40°F to +180°F

### WHEEL OPTIONS
- **Note:** Select bearings featured are recommended for standard applications. For special applications or alternate bearings consult factory. See bearing information on page 13
- **For customization & special application options, please consult factory**

**Polyurethane on Cast Iron (PI)**

PI wheels are composed of a polyurethane elastomer, open cast or injection molded, on clean, close tolerance cores. Polyurethane tread is chemically bonded to a cast iron core. High capacity polyurethane protects floors, is non-marking and delivers quieter operation than standard metal wheels.

### FEATURES
- **Hardness:** 95 Shore A
- **Wheel Face:** Available in flat tread
- **Finish:** Green tread on silver painted core
- **Temperature Range:** -40°F to +180°F

### WHEEL OPTIONS
- **Note:** Select bearings featured are recommended for standard applications. For special applications or alternate bearings consult factory. See bearing information on page 13
- **For customization & special application options, please consult factory**
